About Me

Hello! I'm a student at Dian Nuswantoro University, with a strong passion for web and mobile development. I'm currently deepening my skills in both areas while actively participating in the Student Association (Himpunan Mahasiswa), where I've learned a lot about leadership, teamwork, and time management.

I enjoy exchanging ideas—whether it's about technology, academics, or other thought-provoking topics. I'm a collaborative person who enjoys working with others and can easily adapt to different environments and personalities.

With a strong eagerness to learn and grow, I'm always open to new challenges—whether it's through personal projects or team collaborations. My goal is to create digital solutions that are not only functional but also meaningful and impactful to others.
